Dear Army Corps, Senators Cantwell and Murray and Governor Gregoire:

Currently, there are six proposed coal terminals in Washington and Oregon that would export millions of tons of coal through our communities. I am concerned about the local impacts to my community from dirty coal, as described by the EPA, but also to the effect on our region as a whole. I urge you to conduct a comprehensive assessment of the cumulative impacts from all the terminals. Please act on this as quickly as possible, before any permits are issued, rivers are dredged, roads are built and irreparable damage occurs. **Also, please hold a public hearing in Spokane.**
