To Whom This May Concern;

I am Josef A. Kunzler, webmaster of SkagitRiverHistory.com asking to be a party of record to the Gateway Pacific Terminal EIS. SkagitRiverHistory.com is my father Larry's website about the Skagit River Flood Risk and with the enormous increase in rail traffic, there are concerns about the viability of the BNSF Bridge between Burlington & Mt. Vernon, WA to withstand more rail traffic and future floods.

As such, may I see please copies of all testimony by the following governmental bodies:

- Port of Skagit County
- Skagit County
- City of Anacortes
- City of Burlington
- City of Mount Vernon
- City of Sedro-Woolley

Also I would like to see any and all testimony please from the chambers of commerce of Anacortes, Burlington, Mount Vernon and Sedro-Woolley IF any.

As far as comments per se, request scoping please about the capability of the BNSF railway bridge between Burlington & Mt. Vernon to handle *any* additional rail traffic. Thank you.

Respectfully submitted;

Josef A. Kunzler, Webmaster of www.SkagitRiverHistory.com
