- Water quality
- Other natural environment topic

EIS Process

- Alternatives
- Areas of potential effect
- EIS regulatory process
- Other EIS process topic

Please share your comments below: (comments can also be attached to this form)

I am concerned about the impacts of enabling the burning of large amounts of coal on worldwide air quality and climate

Please study the anticipated effects of the combustion of the Powder River Basin coal deposits on worldwide climate and air quality

As a firefighter, I am concerned about the impact of more and longer trains on public safety in Bellingham.

Please study Given current and projected emergency incident data for areas on the waterside of the tracks, please study the probable impacts on citizen safety and survivability from acute medical, fire, and law enforcement events. Also, please study the employee safety impacts on fire and police personnel who potentially are not able to receive training on critical incidents.
