# Environmental Impact Statement Proposed Gateway Pacific Terminal/Custer Spur

## Comment form

Please submit your comments on the Gateway Pacific Terminal/Custer Spur Environmental Impact Statement by January 21, 2013 to be included in the scoping summary report. Comments can also be submitted online at [www.eisgatewaypacificwa.gov](http://www.eisgatewaypacificwa.gov).

### What part of the proposal does your comment relate to?

- Vessel
- Rail
- Industrial site
- Multiple/not listed

### Does your comment relate to any of the following topic areas? (check all that apply)

#### Human environment

- Noise
- Air quality
- Human health
- Traffic or safety
- Other human environment topic

#### Natural environment

- Wildlife or vegetation
- Marine species, fish or fisheries
- Wetlands or streams
- Water quality
- Other natural environment topic

#### EIS Process

- Alternatives
- Areas of potential effect
- EIS regulatory process
- Other EIS process topic

### Please share your comments below: (comments can also be attached to this form)

I want the EIS to take into account all of the impact on all of the communities from the coal mining, to the coal terminal, to China, & to the world - w/ the impact of this coal being burned. Your worst study the impact has on further escalating climate change, & the melting of the glaciers.

I want a study on the impact on human hearing  
 hearing the noise from these additional & heavy  
 trains. I am already being awakened at night  
 from the stretching of these trains & have a hard time  
 getting to sleep again. You need to study the psychological  
 impact of interrupted sleep.

I want the EIS to investigate the added impact on herring (since they are already significantly diminished) Herring are food for ~~state~~ salmon & SSA has revegetated already on slides they should have done.

Secondly - the shipping vehicles will significantly increase <sup>water</sup> traffic, interfere with farmers, fishermen & boaters, kayakers, making it unsafe, & they will (coal transport boats) bring pollutants, acidification, Please study this

I want you to investigate the potential impact of rail fire on the communities near the tracks. As the likelihood of additional fires (in addition to the one last year), we already do not have adequate outlets if there is to be a fire.
