

Subject: Docket number COE-2012-0016
Proposed Gateway Pacific Terminal
Draft EIS scoping comments

Dear Army Corps of Engineers, Department of Ecology and Whatcom County Council:

I support the Gateway Pacific Terminal and request a fair review of the proposal that will put thousands of local residents back to work and be designed in a way that will protect the environment. This project would positively affect my community by creating much needed family-wage jobs, increasing local tax revenue, and utilizing a site that has been zoned for heavy industry for decades. Please ensure compliance with Washington's high environmental standards, but avoid unnecessary delays.

Bellingham needs the
jobs the GPT would
supply. No more stall
tactics. Let's get on with
it.

Please ensure compliance with Washington's high environmental standards, but avoid unnecessary delays.

I absolutely support this Gateway Pacific project.

as I think it will attract other related business to this area. Rail has been a source of shipping goods for years and we have survived. The area where the terminal will be is ideal for such a business, and it would be a bonus for Whatcom Co.

Proposed Gateway Pacific Terminal
Draft EIS scoping comments

Dear Army Corps of Engineers, Department of Ecology and Whatcom County Council:

I support the Gateway Pacific Terminal and request a fair review of the proposal that will put thousands of local residents back to work and be designed in a way that will protect the environment. This project would positively affect my community by creating much needed family-wage jobs, increasing local tax revenue, and utilizing a site that has been zoned for heavy industry for decades. Please ensure compliance with Washington's high environmental standards, but avoid unnecessary delays.

Yes I support
you 110%

Subject: Docket number COE-2012-0016
Proposed Gateway Pacific Terminal
Draft EIS scoping comments

Dear Army Corps of Engineers, Department of Ecology and Whatcom County Council:

I support the Gateway Pacific Terminal and request a fair review of the proposal that will put thousands of local residents back to work and be designed in a way that will protect the environment. This project would positively affect my community by creating much needed family-wage jobs, increasing local tax revenue, and utilizing a site that has been zoned for heavy industry for decades. Please ensure compliance with Washington's high environmental standards, but avoid unnecessary delays.

This would put my husband to work if this project were to pass. Tax Revenue is greatly needed in this county as well as the jobs it creates.

Blaine WA 98230
360-366-4048

Whatcom County is planning to allow 160
miles of County Roads to revert to gravel
because of lack of tax monies to maintain roads
we need to beg businesses to come to Whatcom
County and implement regulations that
allow people to grow and prosper not
throw up barricades to stop any type
of progress. Stop outsourcing our jobs to
Mexico and Canada look at your kids
futures.
