Pollution of water and marine life.

There is no question that both coal dust and large ships will negatively impact our waters (fresh & saltwater) and marine life. Respect the most precious resource of life - WATER - for both humans & marine & water creatures.

Jobs -

Coal jobs, in whatever form, contribute to the devastation of our planet. Coal is a dirty fuel/energy source and needs to stay in the ground.

Build alternative clean energy jobs like wind and solar energy and provide work for the long haul and the future of our planet.
